Hi,

Thanks for checking on that. It will not be an issue. The quote does not require signature, it's simply for your records. We have the expiration set on there so if the prices increase when we issue a new quote (for new business) that they are aware. I assure you that would not be the case on the renewal.

Hi Shelly and Tyler,

Thank you both for hoping on the call today. Quick question. Are you able to utilize the attached quote that I sent for the July renewal? Jake suggested we wait to generate the invoice once the PO is approved, that way it is not generating additional late notices. Does that work for you?

Gwen
