EXHIBIT A

Description of the Services

Mid-Michigan Community Health Access Program (CHAP) will utilize its team of Nurses, Social Workers, and Community Health Workers to engage residents that are identified via Inappropriate Emergency Department (ED) utilization lists. Residents will be screened for Social Determinants of Health (SDOH) needs and connected to appropriate resources. Additionally, residents will receive connection to their medical homes and support navigating various health services. It is expected that CHAP will serve an estimated 500 residents a month. Quarterly reports will be submitted that provide an overview of residents served, common SDOH needs, and overall project activities.

Purpose

The proposed project will work with local health systems, health information exchange entities, and Medicaid health plans to identify high and inappropriate Emergency Department Utilizers. Once identified, intervention will be implemented, with the expected outcome of decreased ED use, resolved SDOH needs, and improved health outcomes. Specific to 911 efforts, any non-emergency residents would be connected to a Community Health Worker to support their non-emergency/SDOH needs.
