GVT will from time to time in its discretion develop and provide to Customer, for installation by Customer, maintenance releases for the Licensed Software which it has developed. GVT agrees that each maintenance release for the Licensed Software will be compatible with the then current unaltered release of the Licensed Software. GVT representatives shall be accessible by telephone and e-mail on a 24/7 basis for 72 hours following its release of a new maintenance release or patch. GVT shall also develop and distribute from time to time in its discretion during the term of this Agreement other program updates and new system versions of the Licensed Software. All decisions regarding whether and when to develop and distribute any new releases shall be within the sole discretion of GVT. Installation of maintenance releases, updates, upgrades and new versions is not included and is outside the scope of Maintenance Services to be provided hereunder, and shall be the responsibility of Customer unless contracted for separately as needed on and installation by installation basis. GVT is not responsible for maintenance release issues that are caused by development by Customer. If Customer opts to develop in-house, Customer is responsible for determining and enforcing that Customer development staff is adequately trained on the Visions Server development tools and aware of how to avoid changes that are incompatible with maintenance releases.

GVT will provide support for the Licensed Software based upon the reported Severity Level of the problem as follows:

- a. Severity Level One (1) - The System is totally inoperative and/or real-time use is not possible.
- b. Severity Level Two (2) - A module or component of the Licensed Software application is inoperative, creating a critical situation for that function, however the general use of the application is possible.
- c. Severity Level Three (3) - All other problems arising with respect to the Licensed Software which are not critical, including Customer requested corrective support, preventative maintenance and, if applicable, any Contractor required enhancements and/or installations.

If the problem is reported during normal business hours, an engineer will be immediately assigned to commence resolution of the reported problem. In the event that the problem is reported outside of normal business hours, a technician will be assigned to commence resolution of the reported problem at the beginning of the next business day. Once an engineer is assigned, the Contractor agrees to maintain a commercially reasonable continuous effort during regular business hours to resolve the reported problem.

iii. Severity Level Three (3) - During normal business hours (9:00 a.m. - 6:00 p.m. EST Monday through Friday excluding holidays). f. Customer will make a reasonable effort to establish and maintain an internal competency center or help desk, which provides a central point of contact with GVT through which GVT can coordinate the Maintenance Services agreed to be provided under this Agreement. Upon GVT's request, Customer shall provide its reasonable cooperation and assistance in the resolution of any problem to be addressed under this paragraph 2. Customer's failure to provide such timely cooperation and assistance shall excuse GVT from its obligation to exert a continuous effort to resolve such problem.

g. GVT support services are not available if the Customer's servers are running GVT software that is more than three Major revisions old.

GVT will maintain the Licensed Software so that it is compatible with current releases distributed by the manufacturer of the Customer's base software, i.e., Windows operating system, Internet Explorer, etc.

In the event Customer has other federal, state or local laws or regulations with which the Licensed Software must be compliant for Customer's use, GVT will only be responsible to monitor and maintain the Licensed Software so it complies with such laws or regulations if the

laws and regulations are separately cited on a schedule attached to this Agreement and initialed by an authorized representative of GVT.

Customer hereby grants GVT and each of its employees authorized to perform maintenance of the Software, without further or repeated consent of or notice to Customer, login access to Customer's computer system in order to perform GVT's obligations of maintenance and support pursuant to this Agreement.

GVT warrants that any and all future releases pertaining to the Licensed Software will be free from computer viruses at the time delivered to Customer. In addition to the Customer's primary production system, GVT will also maintain a development system subject to the same licenses and security as the production system. This development system will be used as a work environment and testing ground for any software changes that require Customer approval prior to elevating to the production system.

GVT will maintain and update the software on the servers necessary to run the Customer's application, which will include securing the Operating System (OS) and installing patches. Unless urgent updates are posted, GVT will install OS updates no less frequently than bi-monthly.

GVT shall obtain for use on the Customer's systems any licenses for Microsoft Windows, SQL Server, and Back Up software necessary to perform GVT's services hereunder.

GVT will also maintain an AntiVirus subscription for all servers necessary to run the Customer's application. Updates to the AntiVirus software definitions shall be performed no less frequently than weekly.

GVT shall provide a data center with the features set forth below. This data center may be owned by GVT or may be a co-location facility. If the Customer contracts to use the GVT Mirroring service ("Mirroring"), GVT will provide a second data center in a geographically dispersed location. Each data center will provide the following capabilities/features:

- Generators with a Fuel Service Level Agreement that prevent disruption of power in the event of a major power outage.
- Physical Security that, through the use of finger print scanners, key cards, and driver license verification, inhibits unauthorized personnel from entering the data center.
- HV AC that keeps equipment at safe operating temperatures.
- Advanced fire detection and suppression equipment designed to prevent fires and to suppress fires without damaging equipment.
- Raised floors to prevent water damage in the event that the advanced fire detection equipment malfunctions and sprinklers are used.

GVT will provide staff 24/7/365 to manage the equipment on which the Customer's application resides. Staff assigned to management of the hosting equipment shall be trained in the install, modification, and repair of the Customer's application.

GVT's obligations hereunder regarding backup fall into three categories: Daily, Monthly Offsite, and Mirroring.

GVT will back up production servers daily between 8PM and 8AM Eastern Standard Time. Information will be backed up to Tapes, Network Attached Storage, or equivalent. GVT will use Acronis True Image, Veritas Backup Exec, NTBackup, or equivalent for this purpose.

GVT will provide off-site storage of backed up information monthly. The off-site storage includes all files necessary to recover a system in the event of a "Disaster" (as defined below). Off-site monthly storage is for the purpose of Disaster Recovery and not designed as a permanent archive. Permanent archiving services are outside the scope of this contract.

"Disaster" means an outage of Customer's System caused by an act of God, earthquake, hurricane, war, fire, act of terrorism, failure of telecommunications lines, or

malfunction, failure, loss or destruction of any hardware, network, infrastructure or other component of the telecommunications network. "Disaster" will not include an outage resulting from damage or destruction to the infrastructure of Customer's business facility.

- GVT will provide Disaster recovery services in the event of a Disaster at GVT's data center. GVT will make commercially reasonable efforts to minimize the duration of time that the Customer will be denied access during a Disaster. Outages caused by Disasters will count towards the overall downtime for a month and will be reimbursed according to the section below titled "Service Level Agreement".
- Customer will have the right to audit GVT's production and Disaster recovery facilities and records during regular business hours upon written request. Customer will pay all expenses for such audit.
- If a Disaster occurs that renders GVT's data center unusable or unavailable to the Customer, and if Mirroring is included as a provided service, GVT's Disaster recovery infrastructure will be set up so that it may resume Customer's access to the system from an alternative location, and via an alternative telecommunications route.
- GVT will create, test, and update a Disaster Recovery Plan for the Customer.

GVT shall employ appropriate security practices to protect Customer's data on GVT's networks and on the servers and other devices connected to GVT's network. GVT shall be responsible for compliance with all notification, reporting, and other legal requirements relating to any unauthorized release of data or other breach of security on GVT's network and the servers and other devices connected to GVT's network. GVT shall also be responsible for compliance with all notification, reporting, and other legal requirements relating to any unauthorized release of data or other breach of security that arises out of any act or failure to act on the part of GVT, regardless of whether such act or failure to act was negligent, grossly negligent, or intentional. Under any circumstance covered by this section, Customer, at its sole discretion, may also comply with any notification, reporting, or other legal requirement, provided, however, that compliance shall not relieve GVT of any of its responsibilities set forth in this section or otherwise existing under applicable law.

"Uptime" means all periods of time during which a user can log into the Customer's System, retrieve a form, and log out. Upon Customer's written request GVT will make available to Customer System downtime reports calculated on a monthly basis.

- Desired uptime is 24 hrs/day, 7 days/week.
- Monthly hosting invoices issued from time to time pursuant to this Agreement will be adjusted for system availability issues as follows:
 - If uptime falls between 98-99.9%, Customer will receive a 10% discount on the hosting invoice.
 - If uptime falls between 90-97.9%, Customer will receive a 20% discount on the hosting invoice.

O If uptime falls below 90%, Customer will receive a 100% discount on the hosting invoice and would have the right to terminate hosting.

GVT shall provide the Customer with a minimum of forty-eight (48) hours advance notice for scheduled maintenance, unless it is an emergency. For purposes of evaluating statistics of downtime, normal maintenance that is scheduled with approval of Customer will not be considered to be a system outage.

For the Hosting services provided hereunder, Customer shall pay to GVT annual fees in the amount of \$18,000.00.
