RE: Approval of a grant award from the GISD, in the amount of \$112,886.00, to provide for Genesee County's Great Start Readiness Program; the budget for this funding is attached

BOARD ACTION REQUESTED:

The Genesee County Community Action Resource Department (GCCARD) requests authorization to accept Great Start Readiness Program carryover funds and authorize expenditures for fund 2727-698.02-558.000 in the amount of \$112,886.00 for the 2024-2025 program year from this committee, with recommendation of approval by the full Genesee County Board of Commissioners at their next regularly scheduled meeting.

BACKGROUND:

This funding is from the Great Start Readiness Program (GSRP), the four-year-old at-risk program that GCCARD Head Start operates through a subcontract with the GISD. This funding is blended with Head Start funding to provide full day services to eligible four-year-old children in twelve GCCARD operated Head Start classrooms in the county.

IMPACT ON HUMAN RESOURCES:

No impact on Genesee County Human Resources.

IMPACT ON BUDGET:

\$112,886.00 for fund 2727-698.02-558.000, 100% state funded, with **no Genesee County general fund obligation** (see budget upload).

IMPACT ON FACILITIES:

This does not impact Genesee County facilities.

IMPACT ON TECHNOLOGY:

This does not impact Genesee County technology.

CONFORMITY TO COUNTY PRIORITIES:

This memorandum conforms to Genesee County priorities of Community Growth and Healthy, Livable and Safe Communities and Long-Term Financial Stability by the provision of Head Start programming for at-risk GSRP four-year-olds giving additional Genesee County Children the best possible start.

TO THE HONORABLE CHAIRPERSON AND MEMBERS OF THE GENESEE COUNTY BOARD OF COMMISSIONERS, GENESEE COUNTY, MICHIGAN

LADIES AND GENTLEMEN:

BE IT RESOLVED, by this Board of County Commissioners of Genesee County, Michigan, that the request by the Director of the Genesee County Community Action Resource Department ("GCCARD") to authorize accepting Great Start Readiness Program carryover funds, in the amount of \$112,886.00, and to authorize expenditures to be paid from account 2727-698.02-558.000 for fiscal year 2024-2025, is approved (a copy of the memorandum request and supporting documents being on file with the official records of the January 8, 2025 meeting of the Human Services Committee of this Board), and the Chief Financial Officer is directed to upload the budget adjustments as detailed in the request and supporting documents.

**MICHIGAN DEPARTMENT OF ENVIRONMENT, GREAT LAKES, AND ENERGY
DRINKING WATER AND ENVIRONMENTAL HEALTH DIVISION
NONCOMMUNITY WATER SUPPLY PROGRAM (TYPE II PUBLIC)
OCTOBER 1, 2024 THROUGH SEPTEMBER 30, 2025**

A. Statement of Purpose

This agreement is intended to establish responsibilities for both the Grantee and the State of Michigan (State) in the conduct of complete noncommunity water supply program services required under the Safe Drinking Water Act, 1976 PA 399, as amended, and the Administrative Rules, hereinafter referred to as "Act 399."

B. Program Budget and Agreement Amount

The Grantee will be paid on a quarterly basis for work in the noncommunity drinking water program. The agreement amount maximum is provided in the *Noncommunity Water Supply Program Allocation Schedule*. All requests for payment must be submitted by the Grantee to the State as described in *F. Reimbursement Schedule*.

C. Requirements – Grantee

The Grantee shall perform the following services, including but not limited to:

1. Conduct sanitary surveys, issue water well permits, and have inspections for compliance or enforcement purposes performed by qualified individuals classified as sanitarians or equivalent.
2. Assign one individual to be responsible for operational training and reporting aspects of this agreement and to coordinate communication with the assigned State staff.
3. Maintain a current inventory and track compliance with operation and maintenance requirements at noncommunity public water supplies within its jurisdiction except for F-level surface water or groundwater under the influence of surface water systems and secondary treatment systems noted in Section F.
4. Use the SDWIS State data system, SWIFT and other data system(s) provided by the State.
5. Provide program oversight for required water quality monitoring and reporting at noncommunity public water supplies in accordance with Act 399. The water supply owner shall be advised of the applicable monitoring requirements at the time of completion of a sanitary survey, final approval of a water well permit, or the effective date of the requirement. Notices of violation of required monitoring, maximum contaminant level (MCL) violations, or the occurrence of unregulated compounds shall be provided to the owner and the State in a timely manner. Notices of violation shall include the contaminant, public health effects information, specific precautionary measures, and public notice requirements, where applicable, as required in Act 399.
6. Ensure that repeat samples are collected promptly where initial sample results indicate a potential violation of State drinking water standards; or where the sample analyses are unreliable due to overgrowth, excessive transit time, thermal preservation requirements are not met, or where the presence of organic chemical contamination is indicated.
7. Noncommunity water supplies shall undergo a sanitary survey at least once every five years in accordance with the procedures and regulations established by the State. An accurate and complete sanitary survey form, water well record where available, and transmittal letter to the owner outlining compliance status and

monitoring requirements shall be considered a completed sanitary survey as required in Act 399. Sanitary survey and well record data shall be entered into the program database(s) within 45 days of the survey.

8. Provide a notification to the owners of a noncommunity public water supply found to be in noncompliance that includes the deficient items, outlines corrective action, establishes a specific time schedule for making corrections, and establishes an appropriate monitoring schedule, interim precautionary measures, or public notice requirements, where applicable.
9. Conduct a reinspection within ten (10) days of the expiration date of the compliance schedule to ensure that violations have been corrected and provide documentation of the results of the reinspection to the owner. If compliance has not been achieved, initiate enforcement in accordance with procedures established by the State.
10. Consult with the State in situations where the noncommunity public water supply injects a chemical into the water supply, provides treatment for public health purposes, utilizes a surface water source, or is found to be providing water that exceeds an MCL or contains unregulated organic compounds. Assist treatment operators, review operation reports, and conduct and document in SDWIS or other approved data system (see Staff Reference Manual) site visits for treatment surveillance. The frequency at which treatment surveillance must occur is as follows: D-level treatment such as chemical injection or removal of arsenic or nitrate – one (1) visit per year, Continuous Permanent Public Notice posting at certain Nitrate MCL systems with SO6 enforcement action code – one (1) visit per year; Arsenic bottled water treatment alternative – one (1) visit per three (3) years. In rare instances, if current staff resources suitably trained to conduct surveillance visits are unavailable, the Grantee may make a written request by June 30 to reduce temporarily the number of surveillance visits to be conducted (described in more detail in the Staff Reference Manual).
11. Take prompt action to protect the public health and pursue compliance with applicable construction, public notice, and water quality standards when an inspection establishes that sewage, surface water, chemicals, or other serious contamination can gain entrance into the noncommunity public water supply; when there is a confirmed MCL violation; or when a Level 2 Assessment is required at a noncommunity water supply.
12. Review permit applications and issue permits prior to the construction of any new or altered noncommunity water well(s) as required in Act 399 and in accordance with procedures established by the State. Noncommunity well permits shall be issued on forms provided by the State. This includes grantee performing source (well) permitting for existing systems listed as F-level groundwater under the influence of surface water systems, with the consultation of the State.
13. Complete a review of the Capacity Development Application to determine if each new nontransient noncommunity water system (NTNCWS) demonstrates adequate technical, managerial, and financial capacity (TMF) in accordance with procedures established by the State prior to authorizing construction of the water system. Withhold the construction permit if the owner does not demonstrate adequate TMF capacity in accordance with procedures established by the State.
14. Perform at least one post-construction inspection of all new noncommunity water wells for which a permit has been issued. Final inspection and authorization for use of the noncommunity public water supply by the public shall be accomplished in accordance with Act 399 and procedures established by the State. This includes grantee performing source (well) post-construction inspections for existing systems listed as F-level groundwater under the influence of surface water systems, with the consultation of the State.

15. Provide the well owner with notification of the results of the final inspection report and status of compliance and establish the appropriate future monitoring schedule as required in Act 399.
16. Obtain written requests for deviations from suppliers of water where necessary and evaluate and approve or deny deviations prior to the construction in accordance with procedures established by the State and set forth in R 325.1613 of the Groundwater Quality Control Rules, promulgated pursuant to Part 127, Water Supply and Sewer Systems, of the Public Health Code, 1978 PA 368, as amended (Act 368); and R 325.10809 of the Safe Drinking Water Act, 1976 PA 399, as amended (Act 399) Rules.

18. Maintain appropriate noncommunity program records, including sanitary surveys, water well permits, records of water sampling, and correspondence as required in Act 399. Maintain individual noncommunity public water supply files indexed according to water supply serial number for each inventoried noncommunity water supply.
19. Maintain records for reporting water quality monitoring violations, sanitary survey inspections and compliance status, issuance of water well permits, MCL violations, and issuance of public notices. Requests for payment shall be submitted upon completion of violation determinations and required data entry no later than 15 days following the end of the quarter.
20. Notify noncommunity public water supply owners regarding monitoring requirements that includes language clearly stating that they may use any certified drinking water laboratory, including the EGLE laboratory, for compliance monitoring.
21. Grantees performing Source Water Assessments (SWA) of NTNCWSs shall:
 - a. Participate in a SWA training event hosted by EGLE.
